

## FAQ's

The Youth Work Sector guidelines issued on 13th April 2021, in line with the Government's Resilience and Recovery 2020-2021 Plan for Living with COVID-19, sets out the maximum groups sizes allowed under each level of the framework based on ensuring that at least 1m physical distancing and can be maintained as follows:

<b>Level</b>	<b>Maximum Group Size Indoor *</b>	<b>Maximum Group Size Outdoor *</b>
1	100	200
2	50	100
3	15	15
4	15	15
5	0	15 (from 26 <sup>th</sup> April 2021)

Where at least 1 m physical distancing and strict public health protocols cannot be adhered to groups should not meet face to face but could meet virtually.

BB Companies should abide by the level of the Resilience and Recovery 2020-2021 Plan for Living with COVID-19 applicable to their local area at any given time.

### Outdoor Activities

**Q.** What if a member or leader does not live within the allowed travel distance for an activity?

In line with current Government guidance, youth work staff and volunteers, may, with the permission of the management of their service, exceed the prevailing domestic travel restrictions in order to facilitate the provision of youth services. Similarly, where necessary, a young person may, within reason, exceed the prevailing domestic travel restrictions in order to attend a funded youth service. Therefore, a Captain may issue a letter to a leader or member to travel to attend an organised BB activity if it is further than the current travel restriction, however this should be the exception rather than the norm for any organised BB activity.

**Q.** Is 15 the absolute maximum you can have at outdoor activities?

Multiple pods of up to 15 may operate at an activity provide no mixing of leaders or members happens between pods and the space available for the activity allows for at least 1 m social distancing to be adhered to.

**Q.** What must company do before organising an outdoor activity after the 26<sup>th</sup> April?

As companies have only been allowed to operate online for the past four months, they should complete the Covid-19 Ready Risk Assessment and Company Action log or where this has already been completed for the session 2020/2021 this should be reviewed as part of the planning for the activity. All leaders should complete the Return to Volunteering Form (even where this has been completed previously). All participants (or parents of participants) at the event should be asked to confirm in advance that the participant have no Covid symptoms, have not been identified as a close contact or been advised to self isolate or been out of the country in the past 14 days.

**A.** No, once a Company has completed their risk assessments and are happy with the guidelines provided and have been told by the Management Committee that the suspension of activities has lifted they can go ahead and re-open when they so choose. You will need the buy in from Parents, Leaders and the Church but each Company may have a unique situation (eg, Kildare is in lockdown, so they will not be able to re-open face to face activities straight away).

**Q.** Would horse-work and trampette be an acceptable activity?

**A.** Cannot use a vaulting horse hygienically between uses and social distancing cannot be maintained by Leaders providing support, so therefore this would not be an activity that can be resumed.
