

Found Alphabet Challenge

This is a photograph scavenger hunt where you will photograph every letter of the alphabet. However, you can't use actual letters. You must find the letters hidden within windows, fences, clothing, trees, furniture and just about any object. You need to use your observational skills and see things in a new light. You will be interpreting the environment around you to find letters of the alphabet.

Take one photograph for each of the letters in the alphabet and compile into one image like above and get your parents to send to BB HQ at info@boysbrigade.ie.
